YUSSUF NERGIZ

Front End Developer

📞 +48 881051593   @ yusufyn04@gmail.com   🔗 yussufnergiz.com   📍 Warsaw

EDUCATION

Computer Engineering   06/2025

Vistula University

EXPERIENCE

Angular Developer Intern   08/2022 - 10/2022

LLC InnLab   Almaty, Kazakhstan

Software Company
- Developed the user interfaces and back-ends of multiple websites by utilizing the UI/UX designer's given designs

Speaker   11/2022 - Ongoing

Google Developer Students Club   Warsaw, Poland

Google's University Club
- I had the privilege of sharing my knowledge and insights on various topics related to the world of technology and development.

PROJECTS

Alem-Medicus

Scholarship application site with an admin page
- I've built the mock up of the site using Angular, Firebase and the designs given by the UI/UX designer. The web site has an application form page and an admin page to display the information of all the applicants.
- https://alemmedicus.kz/main

Mazmun

An Online Bookstore
- I've built the mock-up of an Online Bookstore with an authentication system implemented with Firebase. The Front-Eend has been built using Angular and Bootstrap.
- https://github.com/YusufNergiz/Mazmun

My Accommodation

An online house marketplace
- The site has been built using React, Firebase and Tailwind. The website has login/register/logout system built with Firebase.
- my-accommodation.vercel.app

Youtube Clone

Clone of Youtube
- I've built the clone of Youtube using React, Node.js, Express, Boostrap and Firebase.
- https://github.com/YusufNergiz/YoutubeClone

InnLab Landing Page

The landing page of a Software Company
- I've built the Front-End of the landing page using the designs given by the UI/UX designer.
- https://innlab.kz/page

SUMMARY

I'm a skilled web developer with expertise in React, Angular, Node.js, Express, and Firebase. I specialize in creating visually appealing, dynamic websites with exceptional user experiences. I have a strong proficiency in CSS frameworks such as Tailwind and Bootstrap, enabling me to create beautiful, responsive designs that adapt to any device. I stay up-to-date with the latest web development technologies and continually improve my skills to provide innovative solutions. I'm committed to producing clean, well-structured code and delivering top-quality web applications.

ACHIEVEMENTS

◈ **Hack-Yeah Hackathon 2022**
I've had this amazing opportunity to attend Europe's biggest stationary hackathon and meet very top-notch engineers and developers. My team and I were able to compete and create a solution.
